"Drowning"

1.0

Current Employee - Case Manager

Doesn't Recommend

Negative Outlook

I have been working at Devereux Advanced Behavioral Health full-time for less than a year

Pros

Not on call.

People try to help but don't have time.

Cons

Literally you get thrown into a job that you know nothing about and are expected manage a huge caseload. Impossible to function and maintain sanity. Not very team oriented.

Advice to Management

Train people. Let them shadow and learn first.
